

Intelligent Temperature & Moisture Switch

Description

ITM is an intelligent temp & moisture switch ensures that the cable operates only when the snow might be present, it turns on when the temperature drops below 4°C and humidity is above 60%RH and turns off when the temperature rises above 4°C or humidity drops below 50%RH.

Construction

Intelligent Temp & Moisture Switch

Features

- IPX54 protection
- UV inhibitor
- Surge protection
- Built-in grounding protection
- Intelligent mode
- Turn on when $T < 4^{\circ}\text{C}$ & humidity $> 60\% \text{ RH}$
- Turn off when $T > 4^{\circ}\text{C}$ or humidity $< 50\% \text{ RH}$

Performance

- Apply Voltage: 230V
- Max. Current : 16A
- Power Cord Length: 0.8m
